

The FCC needs to wake-up! You're allowing the monopolizing of the air waves!
K-Love serves in providing alternative programs and music that is uplifting and refreshing. Many non-profits serving the community benefit from exposure on K-love, eg. bread basket, pads and other non-profit orginations. We do not need more of the same. Let's keep diversifying our options as to what we can hear on the airwaves.
Thank you, Steve Butzon, O.D.
